## ANTIOCH PUPILS TAKE ILLINOIS POULTRY AWARD

Turnock, Hills Win Championship; School Team Places Fourth

John Turnock and Raymond Hills are the Illinois state high school poultry judging champions.

This was determined at the annual Illinois state high school judging contests which saw the Antioch Township high school judging team win fourth place among the 202 schools competing. The tournament was held in the stock pavilion at the College of Agriculture, University of Illinois, in Champaign-Urbana last week.

Turnock and Hills outscored the stiffest competition offered in the 16 years of the contest's history, the University heads explain. There were 201 schools entered in the poultry judging division.

Others Finish High.

Robert Denman, Willis Griffin and Harold Edwards who were entered in the fast-track judging contests, garnered enough points to capture fourth place laurels from the 184 schools competing in their division.

In the other three divisions, the Antioch boys finished high in the rating but failed to climb within the first ten highest places. The other divisions and those competing were: dairy judging—Frank Verkest, Richard Waters and John Gailger; corn judging—Donald Minto and Frank Zelen; grain judging—Clarence Dunford and Richard Burnette.

"We have been trying for 12 years to win a major victory so we could represent Illinois at a National contest," Coach C. L. Kuttel stated in speaking of the poultry champions and the other members of the team. "Determination won for us. Much credit is due the members of the team. They are a fine lot of boys."

Best Record Since 1920.

He explained that the 12 members of this year's team made the best record of any Antioch team since the establishment of the high school's Vocational Agricultural department in 1920.

Turnock and Hills will represent Illinois at the National contests in Kansas City next October where they will compete for the poultry judging championship of the United States, Coach Kuttel said. Each boy received a gold medal, the state championship award, and a large shield was awarded to the Antioch Township high school. Kuttel also received a gold medal for his coaching.

Verkest Elected Vice President.

At the annual convention of Illinois Association of Future Farmers of America, Frank Verkest was elected vice-president of the organization and was selected as one of the 73 to receive the State Farmer degree. He will have the job of conducting all activities of the organization in the northeastern section of Illinois. He will be a senior in the high school next fall.

A banner was also awarded to the high school for winning second place in the chapter activity contest held in the northeastern section of the state.

## Stages Floor Shows at Round Lake Resort

Now playing at Renehan's Resort, Round Lake, Ill., starting Saturday, June 22 and every Saturday and Sunday thereafter, Mr. Renehan presents a high class floor show consisting of dance teams, singers and dancers and novelty attractions. Dick Dale is master of ceremonies, and featured are Don and Mickle Sommers, novelty dance team; Louise Seymour, a talented dancer doing different styles of dancing; Phil Bernard in impersonations of famous movie and radio stars.

## Swanson Sees Shriners' Conclave at Washington

Mr. and Mrs. Fred B. Swanson of Antioch were two of more than 100,000 people who were in Washington, D. C., last week for the annual Shriners' convention. They motored to the nation's capital and took trips to Philadelphia and New York City. Mr. Swanson, who makes most of the Shriners' convocations, declares that this year's was one of the best he has attended. He is affiliated with the Shrine at Hammond, Indiana.

## ANTIOCH TEACHER BECOMES FACULTY MEMBER AT MACOMB

Mrs. Ruby Richey left Tuesday for Macomb, Illinois, where she has charge of the cafeteria and is head of the Home Economics department at the Western Illinois State teachers' college there, for the summer.

### THINK OF IT!

WILL IT END JUNE 30, 1935?

## House of Davids Meet Kellermen In Diamond Tilt

The bewhiskered gents with the unshorn tresses from Benton Harbor who play baseball for the House of David, have been imported by Nick Keller, Lake county's leading baseball enthusiast, to meet his club of aspiring major leaguers Monday at 6:15 on Weiss Field, Waukegan.

Keller, who has probably started more youngsters on big league baseball careers than anyone, has assembled a team of lads slated for the majors to match what is reported to be the best team ever sent on the road by the Benton Harbor organization. Adolph Wrobel, with Rock Island, who equalled the all-time pitching record of 16 consecutive wins by Walter Johnson of the Washington Senators and "School Boy" Rowe of the Detroit Tigers, will pitch for the Kellermen.

James Quinn, the trickster who baffled the Chicago Cubs in their World's Series shellacking by the Athletics, or Grover Cleveland Alexander, former Cub performer, will start on the mound for King Ben's bearded experts.

## Channel Laker Aids Judge in Settling Waukegan Recount

With Einar Sorenson of Channel Lake carrying the burden for him in the recount, Frank Wallin, Democrat, remains in office as city clerk of Waukegan by a margin of 21 votes, according to the ruling before Judge Perry L. Persons yesterday.

When Waukegan gained national fame as the city of political recounts starting with the Tyrrell-Doolittle tangle last fall, Sorenson who is an expert on ballots and election law, was enlisted by the court as the Democratic representative.

## Howard Mastne Gets Western Laundries Office in Antioch

Howard Mastne of Antioch was appointed representative for the Western Laundries & Cleaners for the Lakes region, it is announced by officials of the company from their headquarters in Chicago. Because of an increase in the volume of laundry handled by this organization in and around Antioch, company heads established the local office as a convenience for their local patrons.

## BUILDS HOME AT BLUFF LAKE

Dr. and Mrs. L. J. Blakeman of Chicago, who have spent many summers in this locality, are completing a fine modern log cabin style home at Bluff Lake. The home which promises to be one of the show places of the region, was designed by Mrs. Blakeman. A. Sippers & Co., of Chicago are the contracting builders.

## Dr. John Turner Dead; Hold Last Rites Here

Word was wired here yesterday of the death of Dr. John Turner who spent his boyhood and began his practice in Antioch. He died at Norwood, Ohio, and his body will arrive here Friday night for burial in one of the local cemeteries. Dr. Turner is a relative of the Chinn family.

## It Never Rains But What it Pours —or Something!

Naw—it isn't rain—just one of those well-publicized "high fogs," you read about in the sunny southern California travel literature!

However, in good old unadulterated middle western language, it's gosh darned rainy.

In fact the rains that began Sunday afternoon and have continued at frequent intervals gave Antioch a good two-inch ducking. Rainfall to date in 1935 is more than three and one-half times that of the corresponding "drouth" days of 1934. Farmers who saw their crops shrivel and waste last spring and summer from heat are now confronted by new and different worries—too much water.

## CHANNEL LAKE STEMS FOX LAKE POWER, 5-0

## Ed Sorenson Spikes Enemy Bats with 4 Hits; Enter Night League

The Channel Lake softballers hung up another scalp Friday by visiting Fox Lake's diamond, whitewashing their opponents and coming back with the long end of a 5 to 0 score.

Although he was hurling his first full game of the season, Ed Sorenson was stingy with his bargain offerings and allowed the Fox Lake lads a measly total of four hits through the nine innings. He was never in danger of yielding a run as his mates snagged every ball that came afield.

Scott, the losing pitcher, was in trouble from the lead-off man's appearance with the west side aggression slugging the game consistently.

When the Channel Lakers take the field against their next opponent, they will be decked in new finery, having had suitable uniforms made for their appearance in the night baseball league at Renehan's on Round Lake. The westsiders have shown steady improvement since the season's opening and hope to win more than their share of games in fast company under the electric lights of the Round Lake arena.

ENTERTAIN 76 at HELSTROM HOME

Seventy-six persons were entertained by Cornerstone Chapter, No. 726, O. E. S. of Chicago, at the John Helstrom summer home on Grass Lake, Sunday, June 9th, for an all day's outing.

The day was spent playing cards, boating, hiking, pitching horseshoes, playing croquet, and watching a baseball game between the single and married men, which the single men won.

The climax of the day was the special Fish Fry which Haling's served them in the evening and which everyone enjoyed immensely.

## CELEBRATE BIRTHDAY ANNIVERSARY WEDNESDAY

A number of friends and neighbors gathered at the home of Mr. and Mrs. Sheridan Burnette Wednesday evening, to help celebrate the birthday anniversary of Mr. Burnette. The evening was spent in playing games and stunts. A luncheon was served late in the evening.

Hot words prevent cool judgment.

## STATE SOLONS PASS OLD AGE PENSION, 49-2

Approve \$5,000,000 Fund for Dollar-a-Day Grant

Springfield, June 19—(Special to Antioch News)—Following the passage of the old age pension bill by Congress today which provides for the Federal government to match state pensions up to \$15 a month, the Illinois Senate passed an old age pension bill today providing a grant of \$1 a day.

The state senate, by a vote of 49 to 2, approved an appropriation of \$5,000,000 for the pension; but no specific taxes were provided for it in the bill. If approved by the House and not vetoed by Gov. Henry Horner, the pension plan will become effective next Jan. 1.

The overwhelming number of proponents confidently asserted that the \$5,000,000 would be taken out of general revenue without necessitating new taxes or burdening present governmental activities depending on funds from which the appropriation will be taken.

Senators James J. Barbour, Evanston Republican, and Louis O. Williams, Clinton Democrat, were the only dissenters, claiming the appropriation "as depending on too haphazard sources of state income."

## Barney Trieger, Pioneer Grass Laker, Succumbs

Barney Trieger, 65, passed away at his Grass Lake home Saturday after a lingering illness.

Last rites were held at the home Tuesday afternoon by Rev. Loyal V. Siller of the Antioch Methodist Episcopal church and Rev. Philip Bohi of Des Plaines assisted by the Masonic quartet of the Sequoit lodge, No. 827. Interment was in Grass Lake cemetery.

Mr. Trieger, who was born on Aug. 18, 1870, at Machetburg, Germany, resided at Grass Lake since he was twelve years old, marrying Bessie Ann Darby at Millburn on Nov. 14, 1895. He was a member of Sequoit lodge, the Order of the Eastern Star, and the Modern Woodmen of America.

He is survived by his widow, Bessie; two sons, Lester of Chicago, and Arthur, who is a rural route mail carrier from the Antioch postoffice; a daughter, Mrs. D. E. Nugent of Chicago; and three grandchildren, Ralph Trieger, and Eugene and Bernard Nugent.

## Insurance Company Will Amend By-Laws

The Millburn Insurance Company has called a special meeting to be held in Masonic Hall at Millburn Saturday, June 29, at 1:30 o'clock for the purpose of amending the by-laws to permit water heaters in milk rooms. The change is made necessary because of the provisions of the new Chicago milk ordinance Secretary J. S. Denman explained. With the passing of the amendment which will become effective at once, all farmer members of the company will be enabled to meet the requirements of the milk ordinance without violating any of the provisions of their policies.

## Safety Council Asks Safe and Sane Fourth

(Special to The Antioch News)

Chicago, June 20—In carrying out your Fourth of July plans it is well to heed the following pertinent suggestions offered by the National Safety Council:

1. Plan your auto trip carefully. Start early and avoid the rush hours. Watch out for hikers and picnickers. Don't drive when too tired. Don't mix drinking with driving.
2. Don't run unnecessary risks while swimming. Don't dive in shallow water. Don't go beyond your depth. Don't go in the water too soon after a meal.
3. Don't celebrate with fireworks and firecrackers; watch your community celebration instead. Don't fool with firearms. Just remember that motor vehicle accidents, drownings and fireworks are always three major causes of accidents on the Fourth, and that your chances of getting hurt on Independence Day are greater than on any other day of the year.

## Federal Leader

Mrs. Irene DeHaven Novotny, field representative of FHA, urges Antioch women to modernize their homes before it is too late.

## WATERWAYS GROUP SEEKS NEW SURVEY OF LAKES REGION

## Want Federal Appropriation to Improve Fox River Territory

Persistent in an attempt to secure an appropriation for improvements to the Fox River and the Lakes region surrounding Antioch, members of the Waterways Improvement association of northern Illinois were encouraged by a report from Congressman Ralph Church that an attempt will be made by him to have a board of army engineers resurvey the district.

The army engineers previously reported that their survey showed that improvements of the Lakes region was not advisable at this time. However, the report was made prior to the drought period last year and the necessity of flood control brought about by excessive rainfall this year.

Reported at 71st Congress.

According to the engineers' recommendation at the second session of the 71st Congress, "no improvement of this stream for navigation in connection with power development, flood control, or irrigation, or any combination thereof, is justified at the present time."

However, since this report, the Waterways Improvement group, through its president, John R. Deason of Fox Lake, has been attempting to obtain state funds for improving navigation on inland lakes.

List \$590,000 in jobs.

Robert Kinsery, director of the public works and buildings of Illinois, has forwarded to Public Works Administrator Harry L. Hopkins a report listing \$590,000 in improvements to the Fox river and Lakes region chain.

Kingery, in informing Congressmen of this report, said: "The items listed are those which in our judgment should be done in the interest of flood prevention and the development of the Fox river as a recreation area. We are applying for the establishment of a Civilian Conservation camp on Grass Lake."

## Probate Judge Allows Village \$6,020 Claim Against Webb Estate

A claim of \$6,020.28 by the village of Antioch against the estate of Chase Webb was allowed by Probate Judge Martin C. Decker last week in connection with the accounts of former Village Treasurer James Dunn.

Dunn, who completed his term as village treasurer of Antioch on May 1, 1933, turned over his accounts of the village in good condition. However, his accounts showed that the village had money in the Antioch State Bank at the time of the national bank moratorium in 1933. Of the amount on deposit, the bondsmen, J. Ernest Brook and the late Mr. Webb waived one-half.

According to the terms of the surety, each of the bondsmen is liable for the full amount, the court records disclose.

## College Boys Enter U. S. Military Camps

Robert Hughes and John Brogan of Antioch, juniors this year at the University of Illinois, who spent a few days here last week with their parents following the close of school, have entered U. S. Military camps for a six weeks training course, Robert at Camp Custer, Michigan, for the officers' training course, and John at Camp McCoy at Sparta, Wis., with field artillery.

## WOMEN REALIZE VALUE OF HOME, SPEAKER SAYS

Mrs. Novotny, FHA Representative, Outlines Plan for Housing Campaign

Declaring that women, more than men, realize the value of a thoroughly efficient up-to-date home, Mrs. Irene DeHaven Novotny, field representative of the Illinois northern district of the Federal Housing administration, urged Antioch women to help themselves by investigating the true meaning behind the Better Housing campaign.

About 75 women braved the rainy weather to hear the noted speaker at the Federal Housing exhibit in the Naber building Wednesday afternoon when plans by the women's committee were formulated for their part in putting over the local campaign.

Invest in Health.

"The home represents an investment in health and happiness which cannot be duplicated," Mrs. Novotny declared. "Secretly, many women have been distressed to see their homes lacking the most essential necessities to keep them up. There are a thousand and one things which need doing, but which many housewives have not been able to take care of. "None of us interested in preserving and protecting homes, and all they stand for, can overlook this problem—and I am not implying that American women are neglectful of their homes. Curtailed incomes and tightened credit have caused repairs to go unheeded."

Explains FHA Meaning.

The speaker explained that the Federal government, recognizing these financial difficulties, has insured loans made by approved financial institutions to property owners, banks and other lending agencies through provisions in the National Housing Act.

After answering many questions regarding titles 1 and 2 of the Act, Mrs. Novotny met with the women's committee for their intense drive, tentatively set for the first week of July. Members of the committee are: Chairman, Mrs. W. W. Warriner; Mrs. H. J. Vos; Mrs. Hugo Mitchell; Mrs. George Anninger; Mrs. Percy Chinn; and Mrs. John Robbins. Following the talk, refreshments were served by the committee members.

The first loan to be approved by the northern Illinois district office of the FHA was in Antioch last week, a report of Percy Wilson, regional director. Several financial institutions, familiar with the usually prosperous area of Antioch and the surrounding neighborhood, are anxious to consummate loans here.

## HEART ATTACK TAKES CHICAGO UNION BOSS AT LAKE CATHERINE

Over-exertion resulting in a heart attack proved fatal to Albeston Cress of Chicago while working on his summer home at Lake Catherine Sunday, according to an inquest held the same day in Strang's funeral home. The deceased was district manager of the Chicago apartment janitors' union, Local No. 1, and had been a regular visitor in the Lakes region for many years. He is survived by his widow and three sons.

Mr. and Mrs. Cress, arriving at the lake Saturday, proceeded with the strenuous work of removing winter traces from their summer home. The exertion caused a heart attack about noon Sunday. Dr. David N. Deering was called and an inhalator, operated by the Antioch Fire Department's first aid squad, was applied without success. Death was due to coronary thrombosis.

## Ray Modernizes Guessing Game to Promote Business

B. A. Ray, proprietor of the service station at 945 Main st., is putting that accumulation of empty motor oil cans heaped beside his driveway to work. The idea is reminiscent of childhood days when the kids attempted to estimate the total number of navy beans in a glass jar. Ray's contest, which closes Labor Day (Sept. 2), dares folks to estimate the total number of oil cans in that pile.

For the most correct estimate, Ray will donate five gallons of motor oil; 20 gallons of gasoline for second; and 10 gallons of gasoline for third place.

Harry Peset, son of Mr. and Mrs. Adolf Peset, has the chickenpox.

Much worth, little boasting.

## TIDE RISING AGAINST BUREAUCRACY

There is a very healthy indication of serious thinking by our people who wish to maintain constitutional ideas of government and drop socializing plans patterned along European lines, which force the citizen to exist for the State rather than the State to exist for the citizen.

The gradual swing back toward constitutional safeguards is not a political issue; it indicates a desire of citizens to maintain liberty of thought and action, freedom of speech and of the press, and to preserve private enterprise and individual property rights which extension of bureaucracy would destroy under a socialized state.

\*\*\*

## LIP SERVICE NOT ENOUGH

"Just because there is an opportunity to improve the marketing situation through cooperative organization, does not, in itself, mean that the goal will be realized by and through a cooperative," said Dean Christenson of the Wisconsin College of Agriculture, recently. "It will not be realized unless and until farmers learn to work together in the carrying out of some of the functions of marketing and distributing in which they have a common interest."

You can't pull a rabbit out of a hat unless you have a rabbit to start with—and the farmer who expects a cooperative institution to make something out of nothing is doomed to disappointment. There are two kinds of farm members of co-ops. One pays his dues, attends an occasional meeting, listens to the speeches, and goes home and forgets all about it until next time. Consciously or not, he expects the cooperative management to find a more profitable market for his products without any aid from him.

The other kind of farmer really works with and for his cooperative. He learns the lesson that agricultural experts offer. He enlists the support of neighboring farmers. He thrashes out ideas with his fellow cooperators—and if ninety-nine out of a hundred of those ideas are impractical, the hundredth is likely to be of real value. That is the kind of farmer who is making possible the great progress of our leading cooperatives.

\*\*\*

## TAXES MULTIPLY LIKE RATS

Government spokesmen, admitting that the national debt will shortly reach the 35-billion-dollar point if the present rate of expenditure is continued, often attempt to laugh this off with the observation that a country as rich as ours can stand almost anything in the way of a debt burden. Also they say that we are

not yet as deeply in debt as a great many European countries. Why should we be? Would that be any honor? Do we want our nation infested with taxes like a rotting ship is infested with rats?

At the present time, federal expenditures are outrunning federal receipts about two to one. In other words, if we spend \$2,000,000,000, half of that is met through existing taxes. The other half must be added to the debt—where it inevitably creates permanent interest charges and new taxes.

The tax burden goes up automatically as public debts increase, just as rats multiply and consume everything around them if they are not exterminated. It is an intolerable drain on individuals and industry. Money that would go for building factories—for home improvement and construction—for jobs and payrolls—for industrial expansion—for farms—for everything that we use for profit and pleasure, is going to the tax collector. Our productive wealth is being sapped to a constantly increasing extent.

Debts make taxes—taxes make debts. They constitute a vicious circle, that threatens the very existence of our social and corporate structure. A tax-infested nation, like a rat-infested ship, is doomed unless fumigating measures are adopted.

\*\*\*

## THE AMERICAN WORKER

A fair deal for labor has always been a cardinal principal in this country.

Temporary economic upheavals should not blind us to the fact that the wages, working conditions and living standards of American workmen, skilled and unskilled, are by far the best in the world.

The labor leader who attempts to stir up dissension in time of crisis, and make impossible demands upon industry, is the honest worker's worst enemy.

A good example of that is provided by a large metal mining company which, like all such concerns, is finding the sledding hard these days. About ten per cent of the company's workers belong to a union whose leaders attempted to call a strike which might have deprived the other ninety per cent of their jobs. The union demanded that the company grant a six-hour day, a thirty-hour week, the closed shop, a minimum wage of \$1.00 per hour for underground workers, and similar things which, in view of conditions, would have bankrupted the company.

Fortunately the strike call failed to carry by a single vote. Had but one man thrown his influence the other way, hundreds of men would now be out of work, because a handful of arrogant labor "leaders" wanted to show their authority.

American industry is doing its best to provide new jobs, pay fair wages and provide the best possible working conditions. The great bulk of workers know and appreciate that and they will do well to beware of the agitator who, like the crooked politician or employer, seeks only his own profit.

\*\*\*

"No matter how desirable public officials may think it is for the Federal government to project itself into the affairs of our citizens, it can do so only to the extent authorized by the Constitution."—Federal Judge Charles L. Dawson.

## Yesterdays

### Forty Years Ago

Barney Trieger returned Saturday from Chicago where he went to dispose of a heavy team of horses, and brought back with him a diminutive, demure looking, long-eared donkey. The aforesaid mule will be kept for the children who frequent Lotus summer resort.

### A June Wedding

A very pleasant wedding occurred at the home of Mrs. Anna Drom, on Saturday, June 2, 1895, the contracting parties being her only daughter, Susie L. and Albert E. Briden of Chicago. The ceremony was performed by Rev. Clarence Abel. The bride was attended by Miss Alice Briden, sister of the groom, while Wallace Drom, brother of the bride, acted as best man. After the ceremony consisting of the immediate relatives of the contracting parties, sat down to a wedding feast, to which all did ample justice.

The bride and groom will make their home in Chicago, to which city they returned Monday morning, accompanied by the best wishes of numerous friends in which the News heartily joins in extending congratulations and best wishes.

### Thirty Years Ago

Lloyd Billett returned on Tuesday from a trip to Nebraska and Wyoming.

Mrs. Albert Barnstable is visiting her mother, Mrs. O. R. Shugart at Rockford, Illinois.

Mr. and Mrs. E. L. Simons spent the latter part of last week in Waukegan. Walter Stickle left on Tuesday for Donaphin, Mo., where he expects to remain for a week or ten days.

On Tuesday of this week a number of the Woodman Camp at this place will attend the annual convention at Milwaukee.

At the last meeting of the board of supervisors a resolution was introduced to erect a hospital at the county poor farm. Upon a vote being taken it was lost by a large majority.

The post office has been undergoing some improvements made necessary by the rural routes. The boxes have been moved nearer the entrance thereby giving more room in the rear in which to assort the mails.

### Twenty Years Ago

Oliver Mathews was in Chicago on business Tuesday.

Ernest Horton and family have moved to the Thayer house, recently vacated by George Conard.

Dr. M. A. Hulet will leave on Friday of this week for Hibbin, Minn., where he expects to locate. Dr. Hulet has made many friends while he has practiced here who will regret his decision to locate elsewhere, but wish him success in his new location.

Last week H. A. Radtke installed a complete set of new furnishings in his barber shop on Main street. The new mirrors in settings of white marble, the new chairs with frame work of white gose to further emphasize the immaculate appearance of the place, and a more sanitary and inviting place, of this kind would be hard to find in towns many times the size of our town.

Mrs. Bacon is entertaining her cousin.

A new barn was raised on the M. Burke farm Monday, which is a great improvement over the one which it replaces.

### Ten Years Ago

Mr. and Mrs. C. L. Kuttel left for Urbana Thursday morning. After attending the live stock judging contest, Mr. Kuttel is to attend the summer conference of Vocational Agriculture Teachers and the open house at the College of Agriculture.

Miss Olive Messager has returned home after spending two weeks with her sister at Cicero, Illinois.

Mrs. Lucinda Cribb is visiting at the home of Mr. and Mrs. Trieger at Norwood Park.

On Tuesday evening about twenty-five friends from Burlington arrived at the home of Mr. and Mrs. Herbert Vos to help celebrate their tenth wedding anniversary. A beautiful wedding cake accompanied the supper which was served, and many beautiful gifts were received. A good time was enjoyed by all.

### The Word "Chemah"

When you read the Scriptures and find the word "Chemah," it's strictly a dairy term and means "thick milk." It may stand for butter, cheese, or a mixture.

### Largest Balanced Rock

Nature Magazine says Miracle rock is believed to be the largest of the kind in the world, it is near Grand Junction, Colo. The rock is sixty feet high, weighs 12,000 tons, and is balanced on a base only three feet thick.

daughters, Chicago, spent the week-end with Mrs. Miller's sister, Miss Mary Sheen. On Sunday in company with Miss Sheen they called on their sister, Mrs. George Vincent and family near Genoa City.

Donald Hopkins and Reuben Schaefer, near Bristol, and Vernon Higgins, Pleasant Prairie, were Sunday callers at the Chris Schaefer home Sunday.

Charley Oetting was a business caller in Chicago Monday.

Herman Oetting, Jr., with friends, Berwyn, Ill., called on his uncle, Charley Oetting and family Sunday.

## ROOSTERS CAN'T CROW ABOUT FIVE MILLION EGG LOSS

Urbana, Ill., June 19.—Roosters have nothing to crow about for the rest of the summer, for they will cause a loss of from \$30 to \$40 in every poultry flock of 100 hens unless they are taken out to prevent fertile eggs says H. H. Alp, poultry extension specialist of the College of Agriculture, University of Illinois. This loss from fertile eggs that spoil in hot weather is a conservative estimate based upon current feed and timato prices. It represents 25 to 30 egg prices. It represents 25 to 30 egg prices. It represents 25 to 30 egg prices.

The direct loss of \$30 to \$40 that roosters cause the farmer through fertile eggs that spoil does not include the loss of feed used in producing the spoiled eggs, Alp said. Altogether it is estimated that roosters cause a loss of about \$5,000,000 to Illinois farmers each year.

Where egg buyers candle and grade eggs, the loss is direct, since spoiled eggs are culled out before the dealer makes the purchase. While grading and candling is not practiced by a large percentage of dealers, those who buy on the count basis are forced to pay a smaller price, thus causing an indirect loss to the farmer. This is well illustrated by the fact that several Illinois poultrymen were able to get 29½ cents a dozen for graded eggs on a New York market, while their local "run of the flock" price was 19 cents. The spread between graded and count-basis prices is growing wider as the weather becomes warmer.

Roosters are necessary during the breeding season when eggs must be fertile to hatch, but at other times of the year should be sold or confined, Alp said. Especially desirable birds or young cockerels may be held over if they are kept away from the laying flock.

As egg and feed prices go to higher levels, the loss from fertile eggs becomes greater. However, the secret of the highest cash income from eggs at any price lies in good breeding, proper feeding, better housing and the production of infertile eggs which are much less likely to spoil.

## COLD RAINS MADE ILLINOIS PASTURE BETTER THIS YEAR

Urbana, Ill., June 19.—Cold, rainy days which threatened to shorten the bluegrass pasture season early in the spring proved to be a vital factor in the greatly improved pasture conditions of Illinois this year, according to J. J. Pieper, crop production specialist at the College of Agriculture, University of Illinois.

During the earlier part of the season growth of bluegrass was stunted by the cold weather, and there was every indication that the grass would seed and become hard and unpalatable as soon as warm weather came. However, the warm weather was delayed to the extent that bluegrass pastures have been excellent in most parts of the state, remaining palatable and succulent longer than usual.

Generally speaking, the pasture and hay situation is good in the state. Not only bluegrass but also other kinds of pasture as well as clover and alfalfa have been benefited by the unusually large amount of rainfall during May.

Present indications are that the good yields of hay will make up to some extent for the smaller acreage of red clover in the state. In addition considerable alfalfa planted last fall is making excellent growth at the present time.

Another factor in the hay situation is the unusually large acreage of soybeans being planted in Illinois this year. Recent estimates show that the 1935 crop will cover approximately 1,822,000 acres as compared to 1,193,000 in 1934 and 588,000 in 1933. Prospects for continued good pasture and plenty of hay and roughage are especially pleasing to Illinois farmers and stockmen who have just passed through the most severe feed shortage Illinois has ever experienced, said Pieper.

## -- THIS WEEK IN WASHINGTON --

As this session of Congress continues on into the hot days of June one can note a growing weariness among the Members of Congress, their secretaries and the clerks of committees. The pressure of long hours in the preparation and study of legislation as well as handling of departmental matters, is beginning to unravel the nerves of those connected with the legislative branch of the government. One is asking the other the invariable unanswerable questions as to when Congress will adjourn.

\*\*\*

The most interesting event of the week was the 15½ hour filibuster by Senator Huey P. Long, Democrat, of Louisiana, in a futile attempt to prevent the enactment of the resolution permitting the continuation of the NRA in a skeletonized form. He pressed for the passage of the amendment proposed by Senator Thomas P. Gore, Democrat, of Oklahoma, to the effect that all appointments to positions in the new NRA which paid \$4,000 or more a year must be confirmed by the Senate.

Shortly after the Senate met at noon on Wednesday Senator Long obtained the floor and began his speech which lasted until about 4:30 the following morning. His only relief from continual talking came from two quorum calls of about 10 minutes each and the questions propounded to him from time to time by Senators who sought to afford him a "rest." In order to retain the floor Senator Long could yield only for a question from another Senator or for a parliamentary inquiry addressed to the chair, Senator Pat McCarran, Democrat, of Nevada, would repeatedly ask long and rather involved questions of the Senator from Louisiana. Promptly the filibuster would rise to a point of order that McCarran was not really asking a question.

Senator Long discussed everything imaginable. His speech included such things as "how to make Roquefort cheese, a salad dressing and 'pot-lik-ker'"; "how to kill a chicken, rob a guinea's and hen's nest." To give him ideas a friendly Senator would propose a question, possibly making inquiry as to what he thought about a recent announcement by the President or Postmaster General Farley. While the question was being asked Senator Long would eat a small bit of a sandwich brought to his desk or drink from one of the several glasses of milk he consumed in the course of the filibuster. Finally, by force of sheer physical exhaustion, at about 4:30 a. m., he yielded the floor to Senator Thomas D. Schall, Republican, of Minnesota, and two hours

later the Senate passed the NRA bill by a vote of 41 to 13.

Friday the House received the amended resolution from the Senate and under a "gag rule" promptly disposed of the bill. The House had previously passed the resolution and the vote Friday was solely upon the question of concurrence in a Senate amendment which would strengthen the anti-trust laws.

Senator Robert M. LaFollette holds the record for the longest filibuster conducted by a single Senator, when in May, 1908, he occupied the floor of the Senate for 18 hours and 23 minutes. However, he did not actually talk as long as Senator Long as the 1908 filibuster was filled with quorum calls, during which time La Follette could rest.

The records show that the longest filibuster occurred in 1890. The Republicans tried to obtain a vote on a bill which would allow the Federal Government to supervise elections in the South. On December 3, 1890, the Democrats began a debate, yielding the floor only to their own membership, which lasted until January 26, 1891, when the Republicans conceded defeat.

Closure in U. S. Senate

In the senate, debate had been unlimited, but a filibuster in 1908 by Senator LaFollette of seventeen hours, by Senator Smoot, in 1915, and other lesser filibusters, caused the senate to adopt a closure rule in 1926, providing that in the event of a threatened deadlock on a measure, sixteen senators might present a petition that the amount of debate on the measure be limited and the bill brought up for action. This petition would be presented to the senate floor and if concurred in by two-thirds vote the measure would be considered and each senator limited to one hour's debate on the measure.

Likeness Between Indian Signs

There are likenesses between the North American Indian sign language and one still understood by the people in the remote valleys of Caucasus mountains in Russia.

Harvard Graduates Promoted

Four presidents of Harvard college, John Leverett, Samuel Langdon, Edward Everett and Charles William Elliot were graduates of this famous old institution.

All Can Be Fooled

"When a man thinks he kin fool too many people," said Uncle Eben, "he attracts so much attention dat a lot o' folks get interested in foolin' him."

## TREVOR

Mrs. Philip Lavenduskil and daughters were Kenosha shoppers Tuesday. William Smith and Arthur Kurioff, Duquoin, Wis., called at the Mrs. Mattie Copper home Tuesday.

Donald McKay and aunt, Mrs. Daisy Hallock, Chicago, called on the former's uncle, D. A. McKay and family Tuesday.

Mrs. Susan Carroll entertained a sister from Plano, Ill., on Tuesday and Wednesday.

Ray Patrick, Salem, is making an indefinite stay with his grandmother, Mrs. Luannah Patrick and uncle, Milton Patrick.

Mrs. Susan Carroll has moved into the Elbert Kennedy home recently vacated by Mr. and Mrs. Charley Hazelman.

Mr. and Mrs. Joseph Letzer, Chicago, who are spending the week at their cottage (Diana Lodge) Camp Lake, called at the Charles Oetting home Tuesday.

Mrs. Hans Dietrich and Mrs. Tillie Karrow, Twin Lakes, visited the former's sister, Mrs. Harold Mickle, on Tuesday.

Miss Pauline Schafer, Kenosha, and brother near Bristol, spent Thursday and Friday with their brother, Chris Schafer and family.

Mr. and Mrs. D. A. McKay and niece, Miss Ruth Thornton, called on friends in Oak Park Thursday.

Mrs. Joseph Smith accompanied her niece, Mrs. Irving Elms, to Waukegan Friday where they called on Mrs. A. Dibble at the sanitarium.

Frank Moran is still in a serious condition at the Kenosha hospital.

Mr. and Mrs. Kermit Schreck received word of the death of Mrs. Oswald at Forest Park on Saturday. Mrs. Oswald was known in Trevor by her frequent visits to her daughter, Mrs. Fred Schreck.

A number from Trevor attended the marriage service of Rhoda Jedede and Arthur Fiegel at Wilmet Lutheran church on Saturday afternoon.

The Longman reunion was held at the Willis Sheen home on Sunday.

Miss Ella Kelly, Cleveland, Ohio, is spending this week with her sister, Mrs. Anna Mizzen and family.

Mr. and Mrs. Albert Mutz, son, Albert and daughter, Katherine, Chicago, spent Saturday evening and Sunday with the former's sister, Mrs. Pete Schumacher and family.

Mr. and Mrs. Frank Runyard, daughter, Dorothy, and son, James, and family, Channah Lake, were Sunday dinner guests of their daughter and son-in-law, Mr. and Mrs. Harold Mickle.

Mrs. Lena Holmes, daughter, Janet, and son, John, Chicago, spent the week-end with her sister, Mrs. Daniel Longman and family and also attended the Longman reunion.

Johnnie Blair, Chicago, spent the week-end with Karl Oetting. Mr. and Mrs. Charley Miller and

## WILMOT

Mr. and Mrs. Paul Voss and children, Ayle and Darwin, were Sunday dinner guests of Mr. and Mrs. Wm. Elfers at Richmond on Sunday to celebrate Father's day.

Howard Zorb and daughter, Ruth Helen, of Milwaukee, were guests at the Runkel home on Sunday.

Mr. and Mrs. Charles Kanis, Esther, Viola and Warren Kanis returned from a motor trip to Algoma on Thursday.

Alfred Reynolds was a Sunday guest of Mr. and Mrs. Winn Peterson at Kenosha.

Mr. and Mrs. Ralph Marzahl, of Hebron, (Alta Voss) announce the birth of a daughter, Nancy June, at Hebron on June 15.

Mr. and Mrs. William Anderson and daughter of Genoa City spent Sunday with Mr. and Mrs. Raymond Rudolph.

Funeral services for Clarence White of Twin Lakes were conducted by Rev. E. Kistler at the M. E. church Monday afternoon. Burial was in the Wilmot cemetery. Commander Frank Christman and a firing squad from the Burlington Legion Post assisted at the burial services and the squad fired a salute at the grave. Members of the Wilmot Fred Semrau Post acted as pall bearers and color bearers.

The Lerner Undertaking Company of Antioch has established a branch office with Kenneth Long at the Wilmot Photo Shop.

Mr. and Mrs. Geo. W. Lewis, Billy and Laura Lee Lewis, of Milwaukee, were guests on Sunday of Mrs. Florence Lewis and Mr. and Mrs. Frank Burroughs.

Mrs. L. Boulden, Mr. and Mrs. Harold Boulden and children, Burlington, and Maxine Sawtelle, of Burlington, were Sunday guests of Mrs. H. Boulden and family. Friday they entertained Mr. and Mrs. John Sibley, Nason Sibley and daughter, Mary Lou, and Mrs. H. Sponholtz from Antioch. Helen Loftus returned home Sunday from the Wisconsin University where she was a student the past year.

At a meeting at the High School on Thursday evening, Marlin M. Schnurr was elected chairman, Roland Helegan and John Sutcliffe as other members of a committee to see about building sidewalks with the assistance of the FEELA in Wilmot.

Members of the Wilmot Ladies M. E. Aid were represented at a Parish party for the Greater Parish Aids at Salem on Thursday afternoon.

Cora Tyler, accompanied by Grace Carey, went to Chicago on Friday where she left for Quincy. Miss Carey was an over night guest of Mr. and Mrs. J. A. Nolan at Oak Park.

There was a meeting of the Ladies of the Holy Name parish at the home of Mrs. Warren Sarbacher at Silver Lake Tuesday evening to plan activities during the summer months for the parish.

The Children's Day exercises at the M. E. church were well attended on Sunday evening.

Sunday guests of Mr. and Mrs. David Kimball were Mr. and Mrs. Wm. Kimball and Mr. and Mrs. Max Miller of Genoa City.

Rev. John Finan is to attend the first mass of Rev. Joseph Steagel at Paris on Thursday morning.

Mr. and Mrs. Walter Carey and daughter, Nancy, of McHenry were dinner guests Sunday at the Carey home to see their son, Dick, who is recovering from a tonsil operation. Jeddle-Flegel.

One of the prettiest weddings which has ever been held in Wilmot took place Saturday afternoon at four o'clock in the Peace Lutheran Church when the Rev. S. Jeddle, pastor there for more than thirty years, read the service for nuptials uniting his daughter, Miss Rhoda Jeddle, and Arthur W. Flegel, Beaver Dam, Wis. The bridegroom is the son of Mr. and Mrs. Otto Flegel, of Silver Lake.

One hundred guests were entertained at a dinner and reception afterwards in the parish hall. Eighteen women of the congregation were in charge of the preparation and serving of the dinner, contributing their art as a token of esteem for the bride who has been active in work of the parish for a number of years, as organist, Sunday school teacher and as a leader in various groups.

Immediately after the reception Mr. and Mrs. Flegel left on a two weeks' trip through the eastern states.

Both the bride and bridegroom attended the high school at Wilmot. The former Miss Jeddle is a graduate of the Racine-Kenosha Rural Normal school and for the past five years was principal of the Channel Lake, Ill., grade school. Mr. Flegel was graduated from Milwaukee State Teachers' College where he was a member of Beta Phi Theta fraternity, and was principal of the Hannan school, Pleasant Prairie township, for seven and a half years.

Uniting in marriage Miss Alvina Martha Milantz, daughter of Mr. and Mrs. Fred Milantz, Burlington, and Milton J. Fonk, son of Mr. and Mrs. M. J. Fonk, Kenosha, was a ceremony held in the parsonage of the Holy Name church in Wilmot Saturday morning at 10 o'clock, with the Rev. John Finan officiating.

Mr. and Mrs. Fonk have left on a short wedding trip through the northern part of the state and on their return will make their home at 3213 Roosevelt road.

Animals Maintain Sentinels

There are only two animals which maintain sentinels at all times, like Indian tribes did long ago. These two are the Rocky Mountain sheep and the elk.

## BELGIAN CONGO IS RICH IN RESOURCES

## Tremendous Strides Made in March of Progress.

Washington.—News dispatches, reporting the tragic death of six men and a woman in an airplane crash in the Congo jungles, recently drew attention to this huge colonial outpost of Belgium in the heart of Africa. Although the plane was reported "lost" in a vast wilderness, only a short time elapsed before it was found, indicating that even the once primitive western borderland near the Congo river is not as far removed from the influence of civilization as it was only a few years ago.

"Many places in the Congo where the bellow of the elephant, the thrashing of the hippopotamus and crocodile, and the shriek of the chimpanzee alone disturbed aborigines, now echo to the blasts of steamboat and locomotive whistles, the drone of automobile and airplane motors, and the buzz of machinery in palm oil factories," says the National Geographic society. "The half century since the inspiring explorations of Livingstone and Stanley has witnessed tremendous strides in the march of Congo progress."

"The new king of Belgium, Leopold III, rules the colony, annexed by his granduncle in 1908. Having visited there twice as a prince, he is familiar with, and vitally interested in, its economic and commercial problems. Nearly 90 times as large as the mother country, and a third as large as the United States, Belgian Congo is populated by approximately 18,000 white men and more than 9,000,000 natives."

## Climate Hinders.

"Perhaps the greatest stumbling block to progress has been the climate. The temperature, remaining always close to 80 degrees, is accompanied by extreme humidity. In the spring, Belgian Congo prepares for one of its two seasons of heaviest rainfall. The other is in October, when the sun again moves across the Equator. But in spite of climatic hazards, the tramp-tramp of western progress has surged forward."

"The dark cloud of depression that has hung over the world showed at least one silver lining as it passed over the Congo. During prosperous days, the development of agriculture was side-tracked in favor of mining. With the advent of economic distress, the government has been encouraged by a 'return to the soil' movement that has seen cotton, coffee, and rice pass from experimental to staple production."

"Palm growing is an important industry. Its nut-oil and kernel products are a dependable source of income—the United States being the best customer. Two-thirds of the colony's wealth is in minerals, copper being the most important. More than 3,900,000 carats of diamonds were mined in 1932. Gold, radium, and tin also rank high as revenue sources, but Congo coal is inferior, being almost worthless for industrial uses."

"Despite the recent unstable condition of world markets, it is an interesting fact that dealers in American-made automobiles found business quite good in the Belgian Congo. Belgium has continued a policy of building good roads into remote districts of its African colony. Some 24,000 miles of highway have been laid, supplementing 2,750 miles of railroad."

**Great Trade Artery.**  
"The great trade artery of the colony, however, is the Congo river. Ninety-five miles above its mouth, at Matadi, several rapid halt steamers. A railroad line links Matadi with Leopoldville, the capital, busy doorway to the interior. Here again the Congo becomes navigable for 1,008 miles to Coquilhatville, Stanleyville, and Stanley falls."

"Above Stanley falls the Congo becomes the Lualaba river, navigable for 965 miles, bending toward the southeastern town of Katanga via Pontherville, Kindu, Kongolo, and Kabako. Many of these important villages, as well as Bandundu, Port Francqui, Luebo, Boma (at the mouth of the Congo), Inongo, Basankusu, Lisala, and Basoko are served by air routes. The southern part of Belgian Congo is linked by railway with the Union of South Africa and the Portuguese colony of Angola."

"The present colonial government encourages all efforts to educate its native subjects. The burden of instruction is carried mainly by missionary workers, both Catholic and Protestant. Government subsidies have been granted, in some instances, in order that their work might proceed. French is taught as soon as native pupils are able to learn the language. Instruction in agriculture, carpentry, and metal working is offered in several schools."

**Oregon Woman, Aged 80, Seeks Angler's License**  
Eugene, Ore.—Mrs. Nancy Burge of Cottage Grove may be eighty years old, but she's going fishing this spring.

Mrs. Burge wrote the Lane county court here asking if she were eligible for a free fishing license. The state grants free licenses to persons who have lived in Oregon more than 90 years. Mrs. Burge did not furnish that information, but County Commissioner Cal Young said she would get the license even if he and the other commissioners had to buy it. "If any woman of eighty still enjoys fishing, she should be able to fish," Young said.

## She Runs a Home, Rears a Family, Writes and Acts on Air Program

(1. Mrs. Gertrude Berg, author-actress, in the kitchen of her New York City apartment. 2. In action at the microphone playing a role of her own writing. 3. As the hostess of her charming home. 4. With her children, Robert, Harriet, and Harriet. 5. In a scene from her NBC radio show. 6. In a scene from her film 'House of Glass'.)

GOING around the clock with Mrs. Gertrude Berg is a day's journey through domestic and professional life as it is lived by the average housewife and mother on the one hand, and on the other, a woman of affairs in entertainment circles.

At NBC studios, where her "House of Glass" show goes on the blue network Wednesday, she may be seen, first, in the act of directing her cast through rehearsals, and later playing the leading role of Mrs. Bessie Glass. Such have been her professional interests over a period of six years.

Though the writing and production of her program demands much of her time, Mrs. Berg is known at home as a gracious hostess and indulgent mother—two phases that hold special charm for her.

Helping the cook is one of her hobbies, and frequently she prepares dinner for the entire family of four, and still manages to find playful pastime in between with her two youngsters, Robert, 12, and Harriet, 9. In addition to these activities, Mrs. Berg is an accomplished pianist, water-color painter and is fond of giving free lectures for worthy causes. She rose to fame as the author of "The Goldbergs."

**Parmigan Changes Color**

The parmigan is a bird which changes color according to its background, on a glacier, living on insects, it is as white as snow. When the parmigan goes to the shore of one of the higher lakes, it turns the color of the gravel along the shore. It dwells in the high altitudes, usually around glaciers.

## ZENZAL STOPS ITCHY RASH IN THREE MINUTES

Don't suffer the torture and torment of a burning and itching skin any longer. Just step into Reeves' drug store and say ZENZAL. Take it home and apply as directed. Then watch the clock. If ZENZAL doesn't stop that itching and burning in three minutes, bring the tube or jar back and get your money.

**Cause of Ice Sheet Unsolved**  
The cause of glaciation in North America and in other parts of the world is still one of the unsolved problems of science. Several theories have been suggested, but none has been generally accepted.

**Blind Graduates Successful**  
Approximately 65 per cent of all graduates of the Ohio State School for the Blind are self-supporting through their ability to follow the trades in which they were instructed while in school.

Please keep in mind that Bishop Stewart will visit our parish on Sunday morning, June 30th, at 11 o'clock. Plan now to attend the service.

## CHRISTIAN SCIENCE CHURCHES

"God the Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 16.

The Golden Text was, "The Lord giveth wisdom. . . . He keepeth the paths of judgment, and preserveth the way of his saints" (Proverbs 2:6, 8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord upholdeth all that fall, and raiseth up all those that be bowed down. He will fulfill the desire of them that fear him: he also will hear their cry, and will save them. The Lord preserveth all them that love him" (Psalms 145:14, 19, 20).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The divine Mind that made man maintains His own image and likeness. . . . All that really exists is the divine Mind and its idea, and in this Mind the entire being is found harmonious and eternal. The strict and narrow way is to see and acknowledge this fact, yield to this power, and follow the leadings of truth" (p. 151).

## In Honor of Flag Day

(Written for last week)

The flag of the United States of America is the symbol of the oneness of the nation; when a Girl Scout salutes the Flag, she salutes the whole country.

This year the Antioch Troop of Girl Scouts will celebrate Flag Day, June 14, by going on an all day hike and concluding the day by holding an investiture ceremony in the woods. The new scout is Jeanette Whitely and she will have the honor of becoming a Girl Scout on Flag Day.

When a girl joins the Scout organization she assumes the duty of helping others to observe Flag Etiquette. The rules of Flag etiquette based on heraldry and courtesy that all Girl Scouts must know are as follows:

1. The Flag should not be raised before sunrise or be allowed to remain up after sunset.

2. The Flag should never be used as drapery in any form whatever; it should never have an object placed upon it.

3. An old, torn, or soiled Flag should not be thrown away but should be destroyed, preferably by burning.

4. The law specifically forbids the use of representation of the Flag in any manner or in any connection with merchandise for sale.

5. The Flag, on being retired or at any other time, should never be allowed to touch the ground.

Scout Scribe,  
Carolyn Phillips.

## Metal for Clock Chimes

High-grade bell metal consists of approximately 78 parts of the purest copper available and 22 parts of imported tin. A great many things included in the bellmaker's art contribute to tonal qualities. One of these is purity of metals used—another is method of suspension and, finally, the precision with which the parts are manufactured and tuned.

## Humanity in Animals' Eyes

There is in every animal's eye a dim mirage and gleam of humanity, a flash of strange light through which their life looks out and up to our great mystery of command over them, and claims the fellowship of the creature, if not the soul.—Ruskin.

## Personals

Mrs. George Nutt of Cernson College, South Carolina, is spending the summer in Antioch with her parents, Mr. and Mrs. John Hancock, Sr.

Miss Margaret Drom of Polo, Illinois, is spending the summer with her sisters and father, Wallace Drom.

Mrs. Virgil Felter and Mrs. H. B. Gaston spent Saturday in Waukegan.

John W. Hancock and children of Greeley, Colorado, are spending a few weeks in Antioch with Mr. Hancock's parents, Mr. and Mrs. John Hancock, Senior.

Mr. and Mrs. George Niedmeyer and grandson, Billie, of Chicago were guests of Mrs. D. A. Williams and Miss Ruth Williams.

Rev. Philip T. Doherty of Des Moines, called on Mr. and Mrs. Adison Felter Tuesday.

Rev. and Mrs. J. E. Charles attended the fifth anniversary of the consecration of Bishop George Craig Stewart at St. Luke's, Pro Cathedral in Evanston, Tuesday.

The luncheon served by the Ladies' Aid Wednesday was well attended, even though the weather was rainy.

Mrs. Ellen Van Duzer entertained Mr. and Mrs. Ray Sheen and daughter, Doris, of Waukegan Sunday.

Guests of Mrs. Ellen Dan Duzer Monday were Mrs. Grace Clark and Mrs. Emel Kletec of Lake Geneva, Wisconsin.

Mrs. E. J. Hayes and the Misses Mildred Horan and Mildred Van Patten are attending a Girls' Friendly Conference at Sycamore this week, from Thursday to Sunday.

Herbert Vos and S. Boyer Nelson were in Chicago Friday on business.

Miss Ruth Perry, a former student of the Antioch Township high school, is attending the University of Chicago for the summer term.

Misses Margaret and Thelma Pullen were guests at the Curtis Wells home at Hickory Corners Saturday.

The Lerner Undertaking company has established a branch office at Wilmet, Wis.

Mr. and Mrs. John Sibley, Mrs. H. S. Sponholtz and Nason Sibley and daughter, Mary Lou, were guests of Mrs. Hannah Boulden of Wilmet Friday.

Mrs. I. V. Peterson of Holland, Michigan, is visiting her mother, Mrs. Wm. Hurley this week.

Mrs. Arthur Lubkeman, who was taken to a Waukegan hospital Sunday where she underwent an operation, is reported to be recovering.

Miss Elizabeth Webb and Miss Ethel Adams drove to Hinsdale, Illinois, Thursday to visit their cousin, Mrs. R. H. Adams.

\*\*\*

(Written for last week)

Mr. and Mrs. Henry A. Thiede of Evanston attended the Allen Gifford wedding Saturday evening and spent the week end with Mr. and Mrs. Eugene Runyard of Channel Lake.

Mr. and Mrs. Charles Poland and Mr. and Mrs. Herschel R. Gaston and son, Donald, of Calumet City, Ill., were guests of the H. B. Gaston family Sunday.

S. Boyer Nelson spent Wednesday in Chicago on business.

Miss Clara Halling returned home Sunday from Chicago, where she attended the installation of Dorella Taylor as Supreme Queen of the Daughters of the Nile at Medinah Temple.

Mrs. Raymond Burnette and daughter, Betty Joan, are visiting her sister, Mrs. Rufus Anthony near Zion.

Miss Dorothy Brogan spent Wednesday night and Thursday in Antioch the guest of her parents, Mr. and Mrs. John Brogan.

Mrs. Kenneth Van Patten and Miss Loretta Loeper were in Kenosha Wednesday.

Dr. and Mrs. H. F. Beebe and Mr. and Mrs. Arthur Bock were calling on Mrs. Bock's relatives in Kenosha Sunday.

Mrs. C. E. Hennings is very ill at her home.

Mr. and Mrs. Arthur Harms of Kenosha, spent Sunday with Mr. and Mrs. Joe Keller.

Mr. and Mrs. O. Matthews spent Sunday with Mrs. Matthews' mother, Mrs. Hannah Boulden at Wilmet.

Mr. and Mrs. George Nelson of Racine, Wis., spent Sunday with Mr. and Mrs. Charles Hostetter and family.

Mr. and Mrs. Charles Catta, Mr. and Mrs. Frank Catta of Chicago and Mr. and Mrs. Edward Babor of Grass Lake were guests of Mr. and Mrs. James Babor Sunday.

Mrs. James Babor is spending this week in Berwyn the guest of her daughter, Mrs. George Malek and other relatives.

Mr. and Mrs. Richard Chapman of Shreveport, La., left Wednesday morning after a few days visit with Mr. and Mrs. Joe Keller and Mr. and Mrs. Earle Skiff of Lake Villa.

Gordon Colby returned Tuesday to his home in Mondovi, Wis., after a week's visit here at the home of his uncle and aunt, Mr. and Mrs. Henry Hunter.

Miss Gwendolyn Sittler is spending this week in Plainfield visiting friends.

Robert Dickson returned Saturday from Dartmouth University, where he completed his junior year.

\*\*\*

Everybody can be somebody.

## AMUSEMENTS

"Public Hero No. 1"  
Stars L. Barrymore  
In Kenosha Theatre

Modern as today's newspaper headlines, and thrilling as their graphic accounts of the war of the government on organized crime, is "Public Hero Number 1." Metro-Goldwyn-Mayer's amazing thriller of the work of the secret service, starting Saturday at the Kenosha Theatre.

Tracing the pursuit of a notorious public enemy, the work of the operative who turns him up to justice, and the amazing ramifications of the Federal agencies pitted against the underworld, the story tells, in details actually taken from records, cases and newspapers, the ever more apparent fact that crime does not pay.

Lionel Barrymore plays the principal character role, in which he demonstrates an amazing facility for comedy along with drama as the bibulous Dr. Glass, physician-in-ordinary to the cohorts of the underworld. Chester Morris gives what is probably the finest performance of his entire career.

## AT THE GENESEE

One of the most unusual stories ever filmed, the tale of a waitress who poses as a wealthy kidnapped girl to save a woman's life, is coming to the Genesee Theatre next Sunday.

It is "Alias Mary Dow," a Universal picture starring Sally Eilers.

Remember "Bad Girl"? In "Alias Mary Dow," Miss Eilers has a similar role, as the flippant little waitress who loves to win dance contests. But in this dramatic film she is also called upon to play socialite and she does so well that the most eligible bachelor in the new world into which she is suddenly plunged falls desperately in love with her.

Appearing opposite Miss Eilers is Ray Millard, brilliant young English actor. Also in the fine cast are Henry O'Neill, Chick Chandler, Lola Lane, Katharine Alexander, Baby Jane and Clarence Muse. Rose Franken, author of "Another Language," Arthur Caesar and Gladys Unger wrote the film play.

## Lobster Traps

Lobster traps are usually 3 or 4 feet long and capable of containing a number of lobsters. They are set in water ranging from 5 to 80 fathoms or even more, and are visited every two or three days, if the weather permits. From the traps the lobsters are taken to floating cages, called cars, where they are kept until enough are gathered to warrant a shipment.

## Lack of Perspicacity

One who is being influenced by prejudice is never able to detect his biased judgments by an apparent defect in their plausibility or by any characteristic logical weakness.

## City in Two Parts

Curving in an elongated "S" around the city of Budapest the Danube divides it into two parts. Linked by seven graceful bridges. On one side lies Pest, flat as a table, modern, the center of government, business and amusements; across the river is Buda with its castle—a place of quiet homes, of cobbled streets and memories that go back a thousand years.

## Hypnotism Defined

Hypnotism is defined as an artificially induced sleep or a trance resembling sleep. Its duration varies with the subject as well as the operator, and so also does the intensity of the sleep. While hypnotic suggestion has been used to some extent medically, it has also been employed by others such as stage exhibitors.

## Landmarks in Prague

One of Prague's most ancient landmarks is the Powder gate, built between 1471 and 1516 as an entrance to the old fortified town. Hybernaska street and Prikopy street form the busiest traffic corner in Prague.

## LAKE VILLA

Delbert Sherwood, who is in CCC Camp at Glenview, spent Saturday and Sunday with his mother here.

Mrs. James Williamson and twin sons, Guy and Lawrence, returned Sunday evening from a pleasant automobile trip east. They visited their daughter and sister, Miss Helen Williamson, a nun at Sharon Hill, Pa., for a few days before traveling on to New York and up into Canada, and were gone from home a week.

Mrs. A. Morgan Duke, better remembered as Alvena Larson, of Fort Worth, Texas, came last week for a visit with her sister, Mrs. Oscar Douglas and other relatives in Waukegan and other points in the country.

Clyde Helm of Champaign, accompanied by a friend, Miss Hazel Boyd, also of Champaign, spent a few days last week visiting his parents, Mr. and Mrs. George Helm.

Mr. and Mrs. Frank Richards drove to Wheaton last Saturday, and Miss Ruth Gottschalk, who has been with them for a few weeks following the close of school, accompanied them to enter summer school.

Mrs. Arthur Nauta of Waukegan was with her daughter, Mrs. Lester Hamlin and family for Saturday and Sunday.

Dr. and Mrs. Yale of Elgin were guests of Mr. and Mrs. H. H. Perry on Sunday.

Mrs. Paul Avery accompanied by Mrs. Harold Bruce of Grayslake, spent Friday in Chicago.

Mrs. James Leonard, who has been quite ill, is on the mend, and is able to be about the house again.

Miss Ruth Perry of this place and Miss Nellie Stanton of Long Lake entered University of Chicago as students of summer school on Monday morning.

Rev. De Selms, who has been a student at Garrett Biblical Institute, has completed the course for the semester and will enjoy a vacation with his family at his home for the summer. Instead of the usual four days, he spent two days this week.

Miss Belle Richards of Antioch spent last Friday with friends here.

Mr. and Mrs. C. C. Frye and son spent the greater part of last week with their parents at Mattoon, Ill.

Ben Cribb was in Chicago a few days last week and visited friends there.

Mr. and Mrs. Ed Tiede drove to Chicago on Friday and Marilyn Tiede who had spent the week with her grandmother, returned home. Mrs. Tiede's mother also returned with them to spend a few days.

George Walker, who is an official in the Crown flour mills of Portland, Oregon, came east on a business trip and was able to spend a few days with his brothers, Will and John, and their families here last week, and to call on friends. He made a trip to Milwaukee on Wednesday of last week and his niece, Margaret Walker, and her friend, Jean Perry, accompanied him.

Mrs. Elsie Bailey and small daughter, Constance, of Cleveland, Ohio, are here for a two or three weeks' visit with her parents, Mr. and Mrs. Carl Seeger and relatives at Kenosha. Her husband accompanied her on the trip and returned home the following day.

Mr. and Mrs. Louis Larson of Union Grove, Wis., visited their daughter, Mrs. Oscar Douglas, a few days last week.

The juveniles of the R. N. A. camp here took part in the R. N. A. and Juvenile Initiation service in Waukegan on Thursday afternoon of this week, and several of the Royal Neighbors accompanied them.

Camp Hastings, the Irving Park Y. M. C. A. camp near Lake Villa, opened a week ago for the first of the four two week periods, and other sessions will begin on June 30, and every two weeks thereafter up to Aug. 1st. Boys register for the entire eight weeks or for one or more of the two week periods. The enrollment for each session will be limited to 100 boys.

Karl Wolfe, boys' work secretary, is camp director. His staff includes Norman R. Maglathery, a member of the faculty at J. Sterling Morton High school and Junior college, athletic and swimming director; William B. Ashley, handicraft director and Henry A. Tendall, who will be in charge of airplane building classes. Miss Constance E. Roberts, a registered nurse, is in charge of health supervision. Mrs. N. A. Berg is camp dietitian, and Miss Althea Harnden is head of the women counsellors for the younger boys' cabins; L. M. Scholpp will be camp engineer. Twenty-eight boys had already registered at the opening of the camp.

## Not Circulating Library

The library of Congress is not intended as a lending or circulating library, but as a reference library and permanent store house of human knowledge. Only certain officials at Washington are entitled, by statute, to the privilege of drawing books for home use. Special permits to borrow books are freely issued by the librarian, however, to persons engaged in research, and there is also maintained an interlibrary loan system by which books may be loaned to other libraries for use of those engaged in serious investigation.

## The Cherokee Alphabet

The Cherokee alphabet was invented by Sequoyia between 1800 and 1821. It was the product of his contact with white civilization. It was accepted by the Cherokee nation and thousands were soon able to read material prepared in their own language.

## GOVERNMENT BANK UNSUITED TO U.S.

Would Serve Politics Rather Than Business Needs, Says R. S. Hecht, Citing Previous Experiences.

## QUOTES PRESIDENT JACKSON

Extent and Diversity of This Country Presents Different Situation From Europe and Makes Regional Banking Necessary.

WASHINGTON, D. C.—A refutation of arguments in favor of a government-owned central bank system for the United States is presented in a statement by R. S. Hecht, President of the American Bankers Association, based on exhaustive studies of European central banks. He also points out the disastrous consequences of previous central bank experiments in the United States.

"Our present regional Federal Reserve System under private ownership is infinitely better for this country than would be a government-owned and controlled central bank," Mr. Hecht says. "If history teaches us anything, it is that it is almost certain that a central bank so owned would be run to meet the varying exigencies of the government in power rather than to serve the commercial needs of the country."

Central banking has been tried twice in the United States, but was finally abolished because the credit control which the central banks exercised became objectionable and unpopular, he goes on to say.

## What Andrew Jackson Said

"The continued existence of the Second Bank finally became a bitter political issue and President Jackson succeeded in abolishing it," Mr. Hecht says. "Permit me to quote from his farewell address: 'The immense capital and peculiar privileges bestowed upon it enabled it to exercise despotic sway over the other banks in every part of the country. From its superior strength it could seriously injure, if not destroy, the business of any of them which might incur its resentment. . . . If you had not conquered, the government would have passed from the hands of the many to the hands of the few; and this organized money power, from its secret conclave, would have dictated the choice of your highest officers. . . . The forms of your government might, for a time, have remained, but its living spirit would have departed from it.'"

When the Wilson Administration considered banking reform it carefully kept away from vesting central banking powers in a single institution and instead introduced the regional idea by creating twelve reserve banks located in different economic and geographical sections of the country. Mr. Hecht says, a plan that has worked exceedingly well because the separate banks are under the guidance of men chosen on account of their intimate acquaintance with the problems and needs of their respective territories. He continues:

"The great size and diversity of America tends to make a central bank undesirable. The central banks of Europe such as the Banks of England, France and Germany, cover areas not as large as some of our states. A central bank in the United States on the other hand would be called upon to administer the financial policies of an area larger than all of Europe, in which there are quite a number of central banks."

## Subservient to Popular Demands

"Moreover, history has proven that any banking system entirely owned and dominated by the government usually demonstrates much greater ability in aiding expansion of credit than in putting on the brakes at the right time to prevent undue inflation by restraining and contracting credit. This is easy to understand because in times of depression everyone is urging the government to make money and credit easy

## HICKORY

Mr. and Mrs. Hugo Gussarson celebrated their son, Otto's thirteenth birthday Sunday afternoon with a family gathering at their home. It was also the fourth birthday of his cousin, Dorothy Jean Holberg from Chicago. Those present were Mr. and Mrs. Allen Holberg and children, Mr. and Mrs. Louis Milling and family from Chicago, Mr. and Mrs. Otto Olsen, Jr., and Mrs. Petersen from Park Ridge, Mr. and Mrs. Otto Olsen, Sr., from Algonquin and Mr. and Mrs. Larson and Mr. and Mrs. Church from Southside, Chicago.

Mrs. Ellen Tillotson and Miss Grace are spending some time in Kenosha.

Paul Nielsen from CCC camp, Milwaukee, was home a few days of last week.

Miss Lois Hunter of Oak Park was home over Sunday.

Mr. and Mrs. Leo Thompson of Wheeling visited George A. Thompson family Saturday evening.

The Misses Margaret and Thelma Pullen of Antioch visited Saturday at the Curtis Wells home.

Mr. and Mrs. Austin Savage in company with Mr. and Mrs. Kubs of Antioch spent Saturday and Sunday visiting relatives in Apple River and vicinity.

Dr. and Mrs. A. J. Stream of Chicago spent Sunday with the Ed Stream family on the farm.

Mr. and Mrs. Ralph Fields called on Mr. and Mrs. Vessie Dibble at Padlocks Lake Sunday afternoon.

Miss Doris Bray of Waukegan spent last week with her grandparents, Mr. and Mrs. Chris Cook.

Miss Mariellen King is working at Lake Marie.

Miss Virginia Wells is working in Waukegan.

Dr. and Mrs. P. M. Jorgensen of Kenosha called at George A. Thompson's Sunday evening.

Harold Thompson, Mr. and Mrs. Will Thompson and Helen spent Monday morning in Kenosha.

## Alpacas

Alpacas are not as tall as llamas; they have short legs, rather heavy-looking bodies, two to four feet in height. Body and legs are covered with wool which is often six or eight inches long. In some species, says the Washington Post, the wool hangs almost to the ground. The alpaca is larger and heavier than the largest dog; its neck is rather long and thick, and when approached by a stranger the beast pricks up his ears and at times spits at the intruder, as do llamas.

and to encourage expansion.

"On the other hand, it always has been and always will be a difficult task for any government to call a halt in time of apparent prosperity because in the very nature of things the government would be very sensitive to public criticism and would hesitate to take any action which would tend to curtail business activity. It is such undue susceptibility to popular demands which makes government banking inherently weak."

"Our studies show that of all the central banks at present existing there are only four whose stock is owned by the government. The newest central bank is that of Canada, which opened its doors only a few months ago after a most exhaustive study had been made of the experience of all nations with the result that the stock of the Bank of Canada is privately owned."

The American Bankers Association, Mr. Hecht says, is convinced that a central bank would not be in the interest of the public or the banks. This position, he added, is "well understood by the President and the leaders in his Administration for we have been absolutely frank with them in all of our discussions and have missed no opportunity for emphasizing that in our opinion no banking system will, in the long run, be sound if it is dominated entirely by the ever-changing political administrations. We should do all we can to keep our banking mechanism as far removed from partisan politics as possible."

## MILLBURN

Mr. and Mrs. Charles Marshall, Alice Stewart, Margaret McFarland and Merrill Taylor of Chicago were guests for dinner at the J. H. Bonner home Sunday.

Richard Martin and John Edwards drove to Chicago Wednesday evening. Mrs. J. Kaluf spent a few days with Mrs. Elvin Griffin at Grange Hall.

Mr. and Mrs. A. H. Piersdorf and daughters, Margaret and Ruth, and Mrs. Beck of Evanston drove to Rochester, Minn., on Tuesday, returning Wednesday.

Mrs. Leslie Bonner and daughter, Beryl returned Sunday morning from a week's visit with relatives in Three Oaks, Michigan. She was accompanied home by her sister and brother-in-law, Mr. and Mrs. Earl Priest, who spent the day at the Victor Strang home.

The Happy Rainbow Workers Club met at the home of their leader, Miss Elsie Behrens, Thursday, June 13th. After spending the afternoon working

## Fuel Value of Wood

It is generally considered that two pounds of wood are equal in fuel value to one pound of soft coal. Certain kinds of wood, such as hickory, oak, beech, birch, hard maple, ash, elm, locust, longleaf pine and cherry have fairly high heat values and a cord of seasoned wood of these species is equal to a cord and a half of shortleaf pine, hemlock, red gum, Douglas fir, sycamore and soft maple to equal a ton of coal, and two cords of cedar, redwood, poplar, catalpa, Norway pine, cypress, basswood, spruce and white pine to equal a ton of coal.—Indiana Farmer's Guide.

## Producing Cellulose

Wood is not an ideal source of cellulose. About half of its solid matter consists of resins and certain complex organic substances known as lignins, which act as binding agents to hold the cellulose fibers together. The process of extracting the cellulose from the other material consists of cooking wood chips under considerable pressure with either caustic soda or calcium sulphite. Under these conditions the resin and lignin are decomposed into water-soluble substances, which are drained off with the water as a dark colored liquor. The pulp remaining consists largely of cellulose, which, after bleaching, is ready for use.

## Seeing Our Blood

The corpuscles of the blood may be seen quite easily under a microscope of 600 or 1,200 magnification.

on record books and their sewing, all enjoyed a half hour of recreation.

Mrs. J. H. Bonner, Vivien Bonner, Mrs. W. M. Bonner, Mrs. Lewis Hausman and Mrs. Gordon Bonner attended the lecture on "Foot Defects" Orthopedic department of the state given by Dr. Walter Fischer of the medical staff.

Geraldine Bonner of Champaign spent the week-end with her parents. Mr. and Mrs. E. A. Martin and Richard were dinner guests at the home of Mrs. Florence Achen in Kenosha on Sunday.

Mrs. Warren Hook entertained the bridge club at her home Thursday afternoon.

Robert Bonner, Jr., is spending a week at the home of his uncle, Floyd Beaumont, near Kansasville, Wis. Marlan Edwards and Allan Beck of Oak Park spent Sunday afternoon and evening at the Frank Edwards home.

The Harold Minto family spent Sunday afternoon with Mrs. Minto's parents, Mr. and Mrs. Holloway, at the Frank Bradley home near Racine, Wisconsin.

## Village Treasurer's Statement

STATE OF ILLINOIS

ss.

Office of Village Treasurer,  
Antioch, Illinois

The following is a statement by Laurel D. Powles, Village Treasurer of the Village of Antioch in the county and state aforesaid, of the amount of public funds received and disbursed by him during the fiscal year ending on the 30th day of April, A. D. 1935, showing the amount of public funds on hand at the commencement of said fiscal year; the amount of public funds received, and from what sources received; the amount of public funds expended, and for what purpose expended, during the said fiscal year ending as aforesaid.

The said Laurel D. Powles, being duly sworn, doth depose and say, that the following statement by him subscribed is a correct statement of the amount of public funds on hand at the commencement of the fiscal year above stated, the amount of public funds received, and the sources from which received, and the amount expended, and purposes for which expended as set forth in said statement.

(signed) LAUREL D. POWLES.

Subscribed and sworn to before me this 10th day of June 1935.

## Did You Ever Try These Recipes? Do, Please

**Strawberry Mousse**  
1 quart strawberries  
2 cups cold water and juice  
1/4 cup sugar  
2 pkgs. strawberry Jewel-Jell.  
2 cups boiling water  
1 pint whipping cream.  
Mash berries; drain off juice and add enough water to measure 2 cups; mix sugar with berries and let stand. Dissolve Jewel-Jell in boiling water; add cold liquid and allow to stand until of syrupy consistency. Whip with egg beater, fold in whipped cream and washed strawberries, leaving out a few whole berries for garnish. Pour into mold and set in refrigerator. Unmold on platter; garnish with whipped cream and whole strawberries.

**Chicken Salad**  
1 four lb. chicken  
2 cups celery, diced  
1 can peas  
1 tablespoon minced onion  
Salt  
Pepper  
1 cup mayonnaise  
3 hard cooked eggs  
Strips of pimiento  
Capers.

Boil chicken until flesh loosens from bone; drain from liquor. Cut meat with shears into uniform, firm pieces. Mix chicken, celery and minced onion lightly with mayonnaise; season with salt and pepper. Serve in lettuce cups and garnish with capers, strips of pimiento and hard cooked egg cut in fourths lengthwise. Serves 12.

## Bride's Cake

1 cup butter  
2 cups sugar  
1/2 teaspoon vanilla  
8 1/2 cups flour  
2 teaspoons baking powder  
1/2 teaspoon salt  
7 egg whites  
1/2 cup milk  
Cream butter, slowly work in the sugar, continuing until smooth. Add extract. Sift together flour and baking powder. Add salt to egg whites and beat until stiff. Add flour mixture and milk alternately to the butter and sugar, beating well after each addition. Carefully fold in egg whites. Bake in heart shaped pan in moderate oven (350 F.) for one hour and ice with White Mountain Icing.

**White Mountain Icing**  
1 cup sugar  
1/3 cup boiling water  
1 teaspoon vanilla extract  
1 egg white  
Put sugar and water in saucepan, stir until sugar is dissolved, and bring to the boiling point. Beat egg white until stiff and add one tablespoon boiling syrup. Add four more tablespoons syrup, one at a time, continuing the beating. Continue to let syrup boil until it will spin a long thread (four inches) when dropped from tip of spoon; then add to first mixture in a fine stream, beating constantly until of right consistency to spread. Add flavoring and spread on cake.

**Plain Icing**  
3 tablespoons hot milk  
1/2 teaspoon butter  
1 1/4 cups confectioner's sugar  
1/2 teaspoon flavoring.  
Add butter to hot milk; add sugar slowly to make right consistency to spread. Add flavoring. Spread on top and sides of groom's cake.

**Nicotine in Tobacco**  
The quantity of nicotine in tobacco varies from 2 to 8 per cent, the coarser kinds containing the larger quantity, while the best cigars seldom contain more than 2 per cent, and often less.

## WOMEN'S PAGE

## SUNDAY DINNER SUGGESTIONS

By ANN PAGE  
ALL meats but pork are somewhat cheaper this week, with lamb still the best value. Broiling and frying chickens are comparatively inexpensive. Eggs are moderate in price and continued cool weather has kept their quality unusually fine. Summer sausages are in season.

There are many excellent values available in vegetables including spinach, string beans, carrots, beets, new potatoes, cucumbers, white turnips, summer squash, and asparagus. Cabbage and onions are again a bit higher. Lettuce and tomatoes are rather high.

Cantaloupe and watermelons are cheaper. A watermelon is just the thing for a holiday picnic. Blackberries and cultivated huckleberries are in market, supplementing the supply of strawberries. Lemons are cheap. Peaches are in market but are expensive and not yet really good.

Here are three menus made up from seasonal foods adapted to different budget levels:

**Low Cost Dinner**  
Chuck Roast Browned Potatoes  
Beets and Beet Tops  
Bread and Butter  
Banana Tapioca Cream  
Tea or Coffee  
Milk

**Medium Cost Dinner**  
Baked Broiling Chickens  
Creamed Potatoes Green Beans  
Bread and Butter  
Strawberry Shortcake  
Tea or Coffee  
Milk

**Very Special Dinner**  
Jellied Bouillon  
Fried Chicken with Cream Gravy  
Parsley Potatoes Carrots and Peas  
Tomato Salad  
Rolls and Butter  
Strawberry Ice Cream  
Sponge Cake  
Coffee  
Milk

**Uses for Baking Powder**  
Add a level teaspoonful of baking powder to each six eggs when preparing scrambled eggs. A lighter and more tasty dish will result.

In preparing mashed potatoes add a level teaspoon of baking powder to each quart (two pounds) of potatoes while mashing. The potatoes will be fluffy, smooth and more tasty.

In making apple or cranberry sauce, add a teaspoonful of baking powder to each quart of fruit. This will enable you to use only half the usual amount of sugar.

Add a level teaspoonful of baking powder to tomato or other creamed soups. This improves the flavor and the consistency.

When making omelets and cheese souffles, add a teaspoon of baking powder for each six eggs used and you will have a fluffy dish that will be the envy of all.

Your home made ice cream will be much smoother and more creamy if you add two level teaspoonfuls of baking powder to every quart before freezing.

**Use a Variety of Flavors.**  
You can vary your menus and make them a never ending source of delight by using a variety of extracts and flavorings. There will be a pleasing freshness to foods which the whole family will like.

Why not try black walnut flavor sometime or almond or strawberry? They will make ordinary dishes seem new and inviting. Try banana or pineapple or peppermint for a delightful change. Orange and banana pies are delicious. Almond in cakes and cookies is a pleasant change.

**Making Electricity**  
When a battery is charged, chemical energy is stored up. As the energy is discharged it becomes electricity.

## A \$1.50 Dinner for 6

YOU don't have to serve an ordinary dinner even if you want it to cost as little as twenty-five cents each for six persons. Here is a dinner for six which can be served for approximately that price, and which contains two unusual dishes. The menu and approximate costs are:

Chilled Prune Juice 17¢  
Macaroni and Liver 46¢  
Buttered Stringless Beans 17¢  
Cucumber and Romaine Salad 25¢  
Bread and Butter 12¢  
Pumpkin Ice Cream 28¢  
Demi-Tasse 5¢

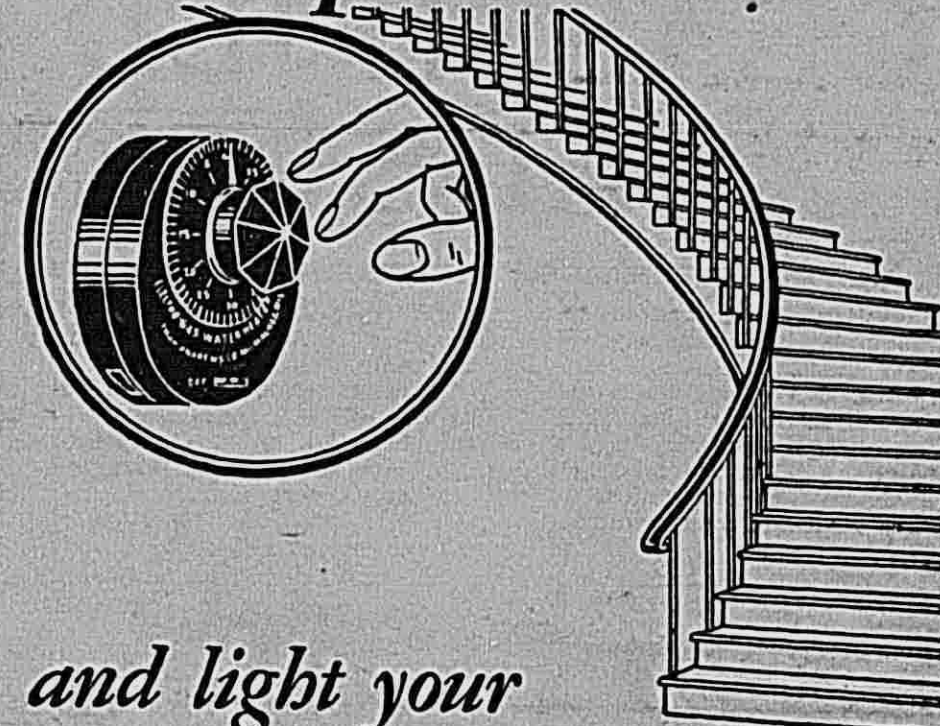

The recipes for the main course and dessert, the two unusual dishes, are as follows:

**Tested Recipes**  
**Macaroni and Liver:** Pour boiling water over one-half pound liver, let stand three or four minutes, drain and remove membranes and blood vessels. Chop fine. Chop one onion and sauté a few minutes in three tablespoons but-

ter, but do not brown. Add liver and sauté a few minutes longer. Add the contents of a No. 2 1/2 can tomatoes, salt, pepper, paprika and one-half teaspoon sugar, and simmer five minutes. Cook one package macaroni in boiling salted water, drain and add to the tomato and liver. Reheat and serve.

**Pumpkin Ice Cream:** Beat one egg yolk slightly, add one-half cup sugar and one-half cup hot milk, then cook in double boiler, stirring constantly, until mixture coats the spoon. Add to one and a half cups canned pumpkin mixed with one-eighth teaspoon salt, one-third teaspoon cinnamon, a few grains nutmeg and two teaspoons lemon juice. Beat one egg white until stiff, add one tablespoon sugar and fold into first mixture. Add one-half cup beaten cream. Pour into refrigerator trays and freeze, stirring occasionally. When half frozen, add one-fourth cup chopped nuts. This may also be frozen in an ice cream freezer.

## Turn a switch upstairs...

## and light your basement WATER HEATER

Simple, convenient control permits either manual or automatic operation.

● An Electro-Gas Control, connected to your present water heater, can be installed in kitchen, bath, or both. It enables you to light your water heater quickly and conveniently, by merely snapping a switch. It ends tire-some running up and down stairs. The switch can be regulated to turn off your heater in a few minutes or to light it at any certain time. It eliminates the danger of forgetfulness because it automatically shuts off the heater when water reaches the desired temperature.

**The "Bluenoses"**  
It is supposed that the nickname "bluenose" became associated with the inhabitants of Nova Scotia as the result of a common variety of potato which at one time was exported in large quantities from that province to New England. The Yankees associated the name of the potatoes with the people who raised them. This particular variety of potato, says a writer in the Cleveland Plain Dealer, was popularly called the bluenose because one end was bluish in color. The Nova Scotians eventually accepted "bluenose" as their favorite nickname.

**First Railway Rails**  
Wooden rails for use in mines were used as early as 1555 on a tramroad near Barnard's Castle company, Durham, England. The first use of iron plates to strengthen the wooden rails was at the Whitehaven collieries, Cumberland, England, in 1738. In 1754, iron plate rails were used on a wagon way, connecting the Coalbrookdale iron works in Shropshire with additional smelting furnaces at Horseley. The first iron rail over which a train operated by a steam locomotive was on the Stockton & Darlington railway, England. This road was opened September 27, 1825.

**Lima on River Rimac**  
Lima is on the River Rimac and while some of the stone bridges were shaken down in the earthquake there is one still intact which dates from 1610. One ancient feature is gone. The Duc de la Palata, who was viceroy from 1681 to 1689, made of Lima a walled city. It was a period of fiery piracy on the seas and the viceroy took this unusual precaution to arm the old capital against raids of the sort in which Sir William Morgan took Panama city. These walls stood until 1870, when they were razed and replaced by boulevards which now ring the city.

**Use for Fur of Coyote**  
The fur of the coyote appears in the fur trade to a considerable extent. The characteristic color of coyote fur is a coarse yellowish gray clouded with black. Inferior furs, like coyote, are very frequently dyed in imitation of other more expensive furs.

**Islands Leased by U. S.**  
Great Corn and Little Corn Islands are in the Caribbean sea, east of the Atlantic coast of Nicaragua. Under a treaty proclaimed June 24, 1916, they were leased by the Nicaraguan government to the United States for 99 years.

**Warriors Rode on Percherons**  
Medieval warriors rode into battle on fine Percheron mounts. Not all of them, of course, but those who held or sought the then much disputed region of La Perche in France used them almost exclusively. Percherons were by no means a new breed then. Nor does history leave any records of a time when they were not to be found in plentiful numbers in the rich valleys and grassy uplands of this ancient province, the native home of the Percheron.

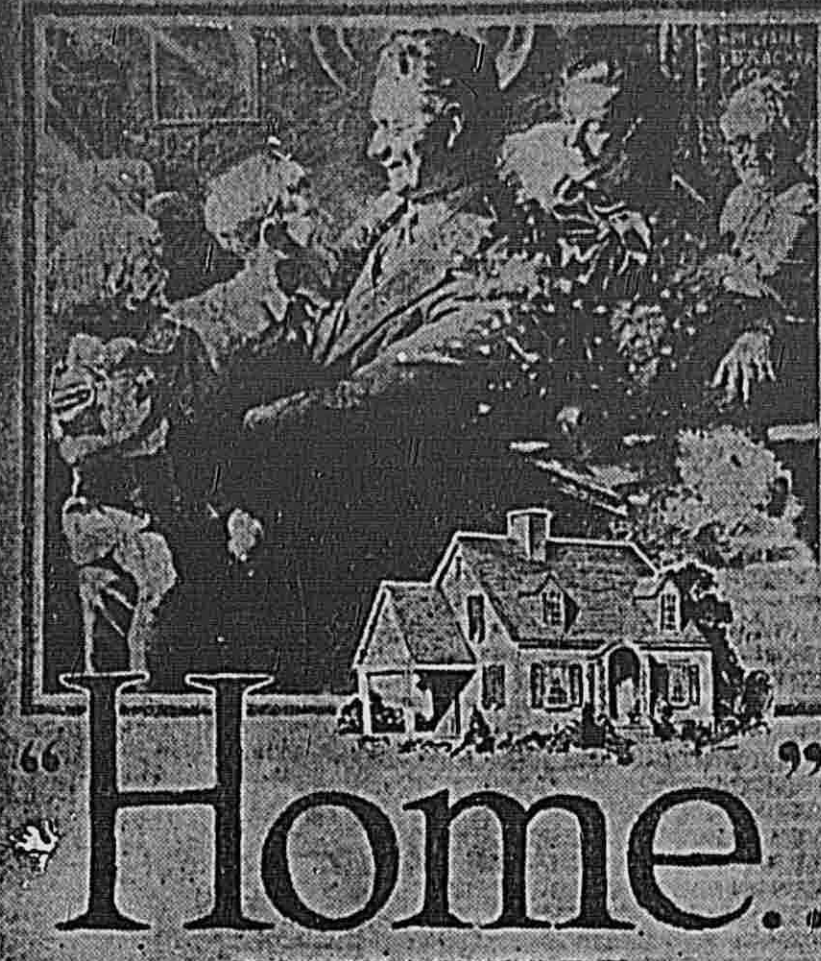

**City Named for Vice President**  
The only Vice President of the United States to enjoy the distinction of having a large city named in his honor was George Mifflin Dallas, who was President Polk's running mate in 1844. Later he was appointed by President Buchanan minister to England. He was the able son of an able father, Alexander James Dallas, secretary of the treasury under James Madison.—Cincinnati Enquirer.

**Good for Man and Beast**  
Dogs are credited with the discovery of quinine, one of the most beneficial medicines supplied by Nature. Long years ago, the Incas of Peru noticed that dogs with sniffling noses sought out the bark of the cinchona trees. They'd chew some of it, and the sniffling would stop. The Indians tried it, found it good for colds, and it's been used by man ever since.—Washington Post.

**Octopus Uses "Smoke Screen"**  
One of the octopus' natural defenses is a thick, viscous, ink-black fluid which it injects into the water in vast clouds when attacked or disturbed. This is to confuse or blind its enemies, but apparently the monster itself can see quite well through the substance with its great owl-like eyes.

**"Flowage Rights"**  
The expression "flowage rights" refers to the right of overflowing land when a dam is built for the purpose of furnishing irrigation or power. The person whose land is overflowed has a right to compensation for any loss. When the right of overflowing a person's land is purchased, this is referred to as flowage rights.

**Colored Elephant Tusks**  
Although the tusks of the majority of elephants are "ivory" colored, thousands of these animals roaming the plains and forests of Africa have brown, rose and even black tusks.—Collier's Weekly.

### Hints for Motorists

By C. R. Strouse  
Director, School of Automobiles,  
International Correspondence  
Schools

If your car fails to start because of dirty breaker points, and your tool kit lacks a fine file or emery cloth, a safety-match box will serve the purpose. Hold the box so as to bring the abrasive strip to bear on the breaker points and you will find that you can do a professional cleaning job in short order.

To free a sticking valve caused by carbon and gummy deposits forming on the stem, heat the engine almost to the boiling point by covering the front of the radiator. Remove the spark plug from the cylinder containing the stuck valve. Pour about 1/4 pint of denatured alcohol into the combustion chamber. Replace the spark plug as soon as possible to retain the alcohol fumes, and let the engine stand for from 15 to 30 minutes. When the engine is again started, the gummy deposits and carbon will be blown out through the exhaust.

**Japanese "No" Robes**  
"No" robes, Alan Priest, curator of the metropolitan department of Far Eastern art, explains, are the costumes worn during the presentation of the "No" plays. These were a development of ritual pantomimes and dances. By the fourteenth century they had become definite stage plays, "in which the most precious legends and examples of behavior were set forth with music, chanting, dancing and orations."

**World War Day of Prayer**  
During the World War President Wilson proclaimed three public days of prayer. The first, eighth of September, 1914, proclaimed October 4 as a day of prayer for the peace of the nation; the second, proclaimed the nineteenth of October, 1917, set October 28, 1917, as a day of prayer in connection with the entrance of the United States into the World War for the triumph of the United States and Allies in a righteous cause; the third, proclaimed eleventh of May, 1918, set the thirtieth of May, 1918, as a day of prayer for counsel and wisdom for victory and peace and for a general confession of sin and declaration of reliance upon Almighty God.

**"Letter" Defined**  
According to the United States Post Office department: "A 'letter' is a message, notice or other expression of thought sent by one person to another. It is just as much a letter if sent in an envelope from one to another unsealed as if sealed, or whether in an envelope at all, if it is directed as a letter. If matter conveys live, individual, current information between the sender and the addressee, upon which the latter may act, rely or refrain from acting, such matter is a 'letter' within the meaning of the private express statutes."

**Giant Jungle Animal**  
Twenty-five million years ago the Gobi desert in eastern Asia was a paradise of woods and waters. Through its jungles ambled the hugest land mammal that ever lived, a giant of flesh nearly 18 feet tall and 30 feet long, rather resembling its modern relative, the rhinoceros. The animal was the baluchitherium, so named because the first fossil remains were discovered in 1911 in Baluchistan.—Literary Digest.

**Oldest Scholastic Athletics**  
The annual Thanksgiving football game between Boston Latin school and English high school is the oldest scholastic athletic rivalry on this hemisphere.

### Non-Freezing Lake Gives Farmer Idea

Geneva, N. Y.—Farmer Dell had a great idea.  
The farmer's inspiration came from a peculiarity of Seneca lake, one of the state's most famous beauty spots.

The lake seldom freezes, despite the fact that surrounding waters are sheets of ice. Only in the most severe cold spells will the lake develop more than skim ice.

Farmer Dell's idea, as he later admitted, was to fill the radiator of his automobile with Lake Seneca water, and save the cost of purchasing non-freezing agents.

To his surprise, the water which would not freeze in Lake Seneca turned to ice so quickly during a zero cold wave that the radiator burst in several places.

### Wild Cherry in Demand

Wild cherry timber is in demand by cabinet makers because it takes such an excellent polish.

Road Warnings in England  
Road signs indicating railway crossings in England contain a picture of a locomotive.

### SPECIAL MEETING of Millburn Mutual Insurance Company

A special meeting of the Millburn Mutual Insurance Company will be held in Masonic Hall, Millburn, Illinois, on Saturday, June 23, 1935, at 1:30 p. m., Daylight Saving Time, for the purpose of amending the By-Laws to permit water heaters in milkhouse. All members plan to attend.  
J. S. DENMAN, Secretary.

### Helium Gas

Helium gas was discovered on the sun long before it was found to exist on the earth. It has no color, taste, nor smell. It does not burn nor support combustion. In fact, says a writer in the Chicago Tribune, it does not react with anything, even at the highest temperatures obtainable. It has been liquefied, but only at a temperature much lower than is required for any other gas. It is virtually insoluble in all liquids. It even comes rather close to having no weight. In short, it bears a distinct resemblance to an absolute void. It lacks even the rather spirited personality of a vacuum.

### Producing Beeswax

Bees consume eight to ten pounds of honey in producing a pound of beeswax.
